4Kx2K

### Experience the amazing of skyworth UHD TV

UHD TV is shorthand for " Ultra High Definition Television ". It is the next generation of HDTV technology. The physical resolution of the skyworth UHD TV screen is 3840x2160 (4Kx2K), doubles the 1080p HDTV standard in both the vertical and horizontal dimensions. Skyworth UHD TV will give you a wonderful visual experience.

**3D**

### Flicker-free 3D TV

Skyworth's 3D LED TV is based on polarization 3D imaging mechanism. It uses passive 3D glasses, replacing the currently active shutter glasses, and also solves the problem which active shutter glasses caused, such as flickering, double-image-faint, radiation, view angle problems etc.

## Ultra-Narrow Bezel Design

Skyworth Ultra-Narrow Bezel TVs provide a virtually edgeless picture for a truly immersive viewing experience. With an incredibly slim bezel, Skyworth TV gives you more screens in the space.

## Skyworth Smart TV

The Skyworth smart TV will invite you to join in on the new viewing experience. It is equipped with Android operating system, which is the most open and with most apps currently. It supports the functions such as full-web browsing, web-page video on demand, downloading and installing third party apps.
